Section 4 – Hearing

Section 5 – Skin

Section 6 – Neurology

Section 7 - Psychological Health

Section 8 – Musculoskeletal

Declaration

Submit / Print

A message will appear- *“Please wait, form answers are saving”*

Once the form is submitted by the new starter a fitness outcome will be issued to the email address/addresses linked to your organisation.

As a guide, these outcomes can be expected:

- **Fit** - The candidate has answered no to all questions regarding any health conditions and has therefore been automatically passed as Fit for Work as there are no health concerns identified that are likely to affect the individual or require any adjustments in the workplace
- **Review Required**- The candidate may declare information that would require clinical review. This may be a simple case of reviewing the information to provide the relevant advice or outcome or may require a telephone conversation with the individual. If a telephone conversation is required, the clinician will attempt to contact the individual on 2 occasions. Following 2 unsuccessful attempts, you would be notified via email with a request that the individual contact our clinical team within 10 days
- **Reviewed - Fit with adjustments or restrictions** - Following clinical review, the candidate has been confirmed as Fit for Work, however a health concern may have been identified. The clinician will provide guidance regarding any beneficial support or action suggested
- **Medical Required**- Occasionally, less than 1%, our clinical team may advise a face to face medical with an Occupational Health clinician, following which you would receive a full fitness report
